SCREEN MACHINE INDUSTRIES, INC. ANNOUNCES THE ADDITION OF THE 5256T IMPACT CRUSHER TO THEIR EXTENSIVE PRODUCT LINE

Pataskala, OH – Industry leader, **Screen Machine Industries, Inc.**, has announced the introduction of their latest offering in tracked portable crushing plants. The **5256T Impact Crusher** is loaded with great features such as standard Caterpillar® tracks and a Caterpillar® C-15 ACERT Tier III 475 HP diesel engine, 52" x 56" Horizontal Impact Crusher, 46" x 38" feed Inlet opening, fully remote controlled operation and the heavy duty quality that you've come to expect from **Screen Machine Industries, Inc.**

Other key features include a unique, patented (US Patent # 7,229,041) split housing design that allows for blockage clearance during operation and ease of maintenance. The wireless remote control triggers the lifting lid allowing oversized material to pass through the crusher without stoppage. The sophisticated design of the **5256T Impact Crusher** generates high production with low maintenance costs.

"We are extremely pleased by the continued growth of our product line with the introduction of the **5256T Impact Crusher** and of our ability to set new industry standards year after year. We are committed to designing and manufacturing the best machines in the business, it's just that simple." said Steven Cohen, Screen Machine Industries, Inc., President and CEO.

Headquartered near Columbus, Ohio, **Screen Machine Industries, Inc.** has been producing innovative portable crushing, screening/shredding plants for over 40 years. All Screen Machine products are made in the USA. Products include 17+ unique crushing, screening and shredding plants to meet the requirements of any jobsite. Multiple US Patents have been awarded as a result of our creative ambition in developing machinery superior to any in the world.
